TO WHOM IT MAY CONCERN

RECOMMENDATION: FMS SERVICES

Stabilis Treatment Centre make use of the services of FMS SERVICES under management of Eben van Wyk for many years already.

During these years we experienced

- ✓ *Friendly and prompt services – reports and updates were always on time.*
- ✓ *Personalized services – we asked many times for specific needs. Never was it a problem!*
- ✓ *Reports – the monthly reports explained in detail our results of the previous month, which helped us to improve our own services.*
- ✓ *Recommendations – we received monthly recommendations about new tendencies and possible opportunities how to improve our services.*
- ✓ *Audits (in detail!) were also done on a regular base to get an evaluation of our services.*

In short, FMS Services helped us to improve our services on a very cost effective way.
